Bligh Bank Offshore Wind Farm

Client:
Belwind NV (Evelop)

Date:
ongoing

Value:
n/a

PMSS disciplines:

- Health & Safety Advisors
- HSE Legislative Review

Belwind NV is a project company formed by Evelop specifically to develop the Bligh Bank Offshore Wind Farm.

The Bligh Bank project is located some 46km off the coast of Zeebrugge, Belgium in water depths of 25-35 meters. The project consists of 110 x Vestas V90 wind turbines with a total project capacity of 330MW.

PMSS have been engaged by Evelop to provide HSE legislative review and to develop a framework for structured HSE Risk Analysis as the project moves forward.
