

# London Array Offshore Wind Farm

## Project Factfile

**Project name:**  
London Array Offshore Wind Farm

**Client:**  
London Array Limited (LAL)

**Date:**  
August 2007 – ongoing

**Value:**  
n/a

### PMSS disciplines:

- HSSE Management
- Quality Management
- CDM Coordination
- Design Risk Analysis
- Construction Management (Onshore)
- O & M Advisors
- WTG Procurement Support
- Interface Management Support

The London Array Offshore Wind Farm is located midway between the Kent and Essex coastlines, more than 20km (12 miles) from each shore.

The project will consist of up to 341 turbines, installed on the Long Sand and Kentish Knock banks and in the Knock Deep channel that lies between. It will occupy an area of around 245km<sup>2</sup> in water depths ranging from 0 to 23m.

PMSS have been commissioned by London Array Limited to provide a range of services to the project in a number of key areas including HSSE Management, Quality Management, CDM Coordination, Design Risk Analysis, Onshore Construction and Operation & Maintenance; as well as supporting roles in Wind Turbine Procurement and Interface Management
