

# Rhyl Flats Offshore Wind Farm

## Project Factfile

**Project name:**  
Rhyl Flats Offshore Wind Farm

**Client:**  
npower renewables ltd

**Date:**  
2006 – ongoing

**Value:**  
n/a

### PMSS disciplines:

- CDM-Coordination
- Site HSE Management
- Health & Safety Advisors

**npower**  
renewables

RWE Group

Rhyl Flats Offshore Wind Farm is located approximately 8km offshore from Rhos Point, on the Constable Bank between Abergele and Rhos-on-Sea.

The project consists of 25 x Siemens SWT-3.6 wind turbines with hub heights of 80m giving a total installed capacity of 90MW.

PMSS have been supporting npower renewables ltd since the site investigation campaigns in 2006.

We have provided support in a number of key areas including; facilitation of design risk analysis workshops for all project packages, advising on CDM strategy for the multiple Principal Contractor set-up and competence & resource assessment of proposed contractors.

PMSS have also provided hands-on HSE supervision during the construction stages.
